Technical File:	DC-14113/E
Test report:	RCT n° 4013504/E

EU Type Examination Certificate

Date: 2022/01/19

n. **525220303/OE**

Validity: 2027/01/18

Functions and performance levels:

To offer limited protection against minor bruises, lifted stones and debris such as those riders often encounter in off-road biking activities (does NOT PREVENT more severe traumas in case of falls).

EN ISO 21420:2020

Protective gloves. General requirements and test methods:

the gloves satisfy the general requirements of design and manufacturing, innocuousness, ergonomic properties.

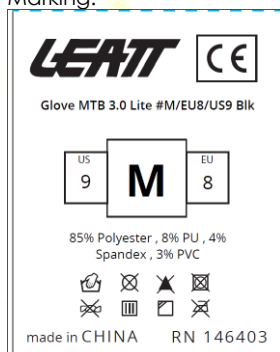

me-int 100 rev.00

(applicable parts of EN 13594:2015)

According to basic requirements tested and assessed (for ex.: seams strength, tear strength, restraints system, abrasion resistance of the palm, knuckle protection, etc.) this glove has obtained an overall PASS level.

Marking:

printed on different labels stitched to the glove and displaying the following information:

- CE Marking;

- name/logo and complete address of the Manufacturer;
- item designation (unique/unambiguous);
- size indication (commercial size + US + EU);
- additional information on different labels: composition materials, care symbols & instructions, "Made in...", internal codes, contact information etc.
